Speidel HDPE Systems

continued from Page 4

Description:

The future is here today. and the future is HDPE Fermentation & Storage Tanks from Speidel.

Are you tired of carboys? Hate siphoning to transfer? Wish you could ferment larger batches in a single container? Sick of lifting 50lbs by a small metal handle? Done with worrying about shattered glass, injury and lost product? Well then have we got the solution for you!

These heavy duty plastic tanks offer a fantastic fermentation & storage solution at a great price.

Key Features:

Heavy duty HDPE construction is durable and resists oxygen transfer. None of the risks of working with glass.

Small footprint makes them easy to store - take better advantage of the space you have to dedicate to wine & beer making.

Built-in handles make these tanks easy to move, even when full.

Large lid opening makes them easy to clean by hand - say goodbye to your carboy brush!

All ports seal with gaskets and the vessel can be fully sealed for long-term storage.

Includes a spigot, airlock and stopper. Additional parts or replacements easy to secure.

Designed and manufactured in Germany by Speidel, the makers of our legendary commercial wine tanks

Suggested Applications:

12liter	3.2gal	Perfect for storing small lots and experimental batches or taking some of your beer or wine along with you to your next party.
20liter	5.3gal	Ideal for secondary fermentation and storage of 5 gallon batches.
30liter	7.9gal	The vessel for fermenting wine kits and 5 gallon batches of beer with plenty of headspace and no need for a blowoff tube.
60liter	15.9gal	Perfect for fermenting larger batches of wine or 10 gallon batches of beer in a single container! Only 4" larger in diameter than a 6.5 gallon carboy!
60 Liter Wide Mouth		Extra large lid is ideal for grape lovers
120liter	31.7gal	120L: Ferment & Store large batches of anything - your creativity is the only limit!
Larger sizes available: 200 Liter - (52.8gal.) 300 Liter - (79.3gal.) 500 Liter - (132gal.)		

Sunfresh can Supply ALL your Wine making needs !!!

Many more products are available but too numerous to list. Below are some of those items. Prices provided on request.

If you can't find something you want-- call (412-303-2053) or email : jay.miller@sunfreshfoods.com

We offer 2 general types of presses, **Water Bladder presses from Speidel**, and **Basket presses from Fratelli Marchisio**

Water Bladder presses from Speidel are industry-leading, German made machines that have proven themselves in years of use. Speidel is the original manufacturer of water bladder presses. With their experience and quality, You sure to be happy with the water bladder presses.

Speidel water bladder presses feature:

- Stainless steel slotted screen baskets, and tough enameled painted bases
- Works on standard household water pressure (up to 3 Bar/44 PSI)
- Recessed valve assembly to protect from damage
- Quick Disconnect "GEKA" fittings to connect the water supply
- Water bladder presses ship in cardboard boxes for protection and easy storage

Fratelli Marchisio is a leading manufacturer of products for winemaking and foodservice. Marchisio basket presses are easy to use, dependable, and well priced for home winemakers.

Marchisio basket / ratchet presses feature:

- Heavy duty enameled steel basin, shaft, and ratchet head
- Reinforced hardwood basket, disassembles into 2 halves for easy pomace removal and cleaning
- Presses ship assembled and are shrink-wrapped for protection

We are pleased to be a distributor for Enoitalia Crushers and Destemmers!

Enoitalia has been in business since the 60's producing machinery for the processing of grapes and wine. Their products are sold in over 35 countries. Enoitalia crushers and destemmers are high quality, Italian-made machines you sure to love.

Features:

- All metal construction, either enamel painted or stainless steel, including the destemmer basket and gear covers
- All motorized Enoitalia crusher/destemmers feature a stainless steel destemming basket
- Motorized models feature a powerful 1 HP motor, and high quality rubber rollers
- Our models are custom modified with easy to remove hardware for cleaning
- All crusher/destemmers ship in a corrugated cardboard box for protection during shipping, and easy storage

Speidel and Fratelli Marchisio Variable Capacity Stainless Steel Tanks.

Speidel variable capacity tanks provide some of the best quality products, with the features and options that professional users require.

All Speidel variable capacity tanks feature:

An unmatched 25-year warranty. If 5 generations of manufacturing experience are not enough, the warranty ensures your tank will have a very long useful life.

Interior finish. Not just a random specification, this means that the surface is so smooth that contaminants and tartrate deposits have a hard time time sticking to the stainless steel surface.

2R goes beyond highly polished, the metal is smoother and stronger at a molecular level.

High quality robotic laser welds for strong and smooth seams.

Conical bottoms with front facing "pocket drains" on tanks with legs. Allows for full emptying of tanks and is easy to clean.

Strong white rubber air gaskets for complete sealing with no leaks. "C" shaped channels gives good contact between the tanks and the lid, and do not have seams that air can pass through.

Available in multiple configurations and styles for every application.

Marchisio variable capacity tanks are perfect for fermentation and storage of must and wine. Made of high-quality stainless steel,

and featuring variable capacity lids(also called floating lids) that allow the tank to be sealed to minimize air contact.

Marchisio tanks feature:

1. AISI 304 Stainless steel construction
2. Variable capacity lids, with clear food-grade vinyl air tubes
3. One stainless steel female pipe thread (FPT) collar for attaching the included chrome spigot, or any other fitting you would like
4. Stands are available for tanks, sold separately
